EDUCATION

University of Nebraska – Lincoln

August 2023 – May 2027

B.S. in Computer Science; Minors in Business and Mathematics | GPA: 4.00

Lincoln, NE

- Jeffrey S. Raikes School of Computer Science and Management – selective interdisciplinary honors program integrating business, computer science, and real-world project experience

EXPERIENCE

Garmin

May 2026 – August 2026

Software Engineering Intern

Olathe, KS

- Co-developed a full-stack Manufacturing Execution System with Vue.js, Pinia, TypeScript, C#, and .NET to track real-time material movement across the warehouse, improving visibility and operational efficiency for warehouse administrators.
- Built and integrated frontend components, backend endpoints, and business logic end-to-end, contributing across the full stack from data layer to UI.

Olsson

August 2025 – April 2026

Software Developer (Raikes Capstone)

Lincoln, NE

- Developed a Stream Assessment portal as part of a Raikes School capstone team using React, C#, .NET, and Azure, replacing manual spreadsheets with automated data uploads, processing pipelines, and interactive map visualizations to support capital funding decisions for private companies and local governments.
- Engineered an ArcGIS mapping integration, learning the platform independently to render geospatial stream data and deliver client-ready map visualizations within the application.
- Presented live product demos to sponsors and advisors across 6 release milestones, communicating progress and gathering feedback to guide development priorities.

Buildertrend

May 2025 – August 2025

Software Engineering Intern

Omaha, NE

- Developed and deployed 15+ production-ready features across internal and external tools using C#, .NET, React, and TypeScript, streamlining workflows for end users and administrators.
- Built scalable UI components and backend endpoints integrating RESTful APIs to enable real-time data flow and improve application performance.
- Optimized the document signing experience by resolving performance issues and permission defects, increasing reliability of PDF generation, signature visibility, and approval tracking.

Scoular

May 2024 – August 2024

Application Delivery Intern

Omaha, NE

- Created a customer-facing Power Apps interface deployed across 100+ facilities to help operators manage equipment safety checks, incorporating user interview insights to streamline compliance tracking.
- Collaborated cross-functionally to build a supply chain management tool integrating CRM and Dynamics 365 data to enhance warehouse inventory tracking and reporting.

Mutual of Omaha

June 2022 – March 2023

Site Reliability Engineering Intern

Omaha, NE

- Developed comprehensive unit tests to improve backend code coverage and system reliability.
- Supported CI/CD workflows with Jenkins to streamline automated build and deployment processes and accelerate release cycles.

PROJECTS

Coup | JavaScript, React, Firebase

Fall 2025

- Built a full-stack online multiplayer version of the strategy card game Coup in a 4-person team, implementing real-time gameplay and seamless user interactions with Firebase.

TECHNICAL SKILLS

Languages: Java, C#, Python, JavaScript, TypeScript, SQL

Frameworks / Libraries: .NET, React, Vue.js, Node.js, Firebase

Tools & Platforms: Git, Azure DevOps, AWS, Postman, Jira, Power Apps and Automate, Figma

LEADERSHIP & INVOLVEMENT

Raikes School Student Advisory Board

August 2023 – Present

President (2026–Present); Member (2023–Present)

University of Nebraska – Lincoln

- Elected president after three years as a board member; serve as primary student liaison between the Raikes School community and faculty/administration.
- Advocate for student needs by organizing career development and community events, fostering engagement and leadership across the program.

Chi Omega Sorority

August 2023 – Present

Director of Career and Personal Development (2025); Member (2023–Present)

University of Nebraska – Lincoln

- Organized professional development and wellness programming including career workshops, networking events, and chapter health initiatives.
- Led logistics, budgeting, and volunteer coordination for an annual reunion with 250+ attendees.
